

# INDUSTRY TALK

**AHMAD ADIB ZIKRI BIN A. MAZLAM**  
**A23CS0205**

## WHAT IS PPG?

It is stand for Pittsburgh Plate Glass. PPG is one of company that produce various type of paint.

## WHY CHOOSE PPG FOR INTERN?

- PPG is very large company that have good enviroment
- The employees are very friendly and will help each other if got into problem
- Even if you are in intern, the company will allow you to join the big project of the company

## THINGS FOUND IN PPG

- Cutting edge cloud technologies
- Get to learn project management
- Reliable Colleagues
- Lots of opportunities
- Involvement like full-time employee

## WHAT YOU NEED TO BECOME A DATA ENGINEER

We need a few skill such as:

- SQL skills
- Data modeling
- Visualization skills using BI Tools
- Programming skills

## SELF-REFLECTION

From the talk, I can see how the big company cooperate with some universities. It is to give the chances to student to try and work as an intern in the big company such as PPG. It also give me motivation or more to encourage me to make more research about other company that recruit intern student. So, I can prepare more earlier to find intern job so that i have experience in a company. From the experience, it is easier for me to get a job once i graduate from UTM.
